Technical information

_Countertop manufacturing (12 mm):

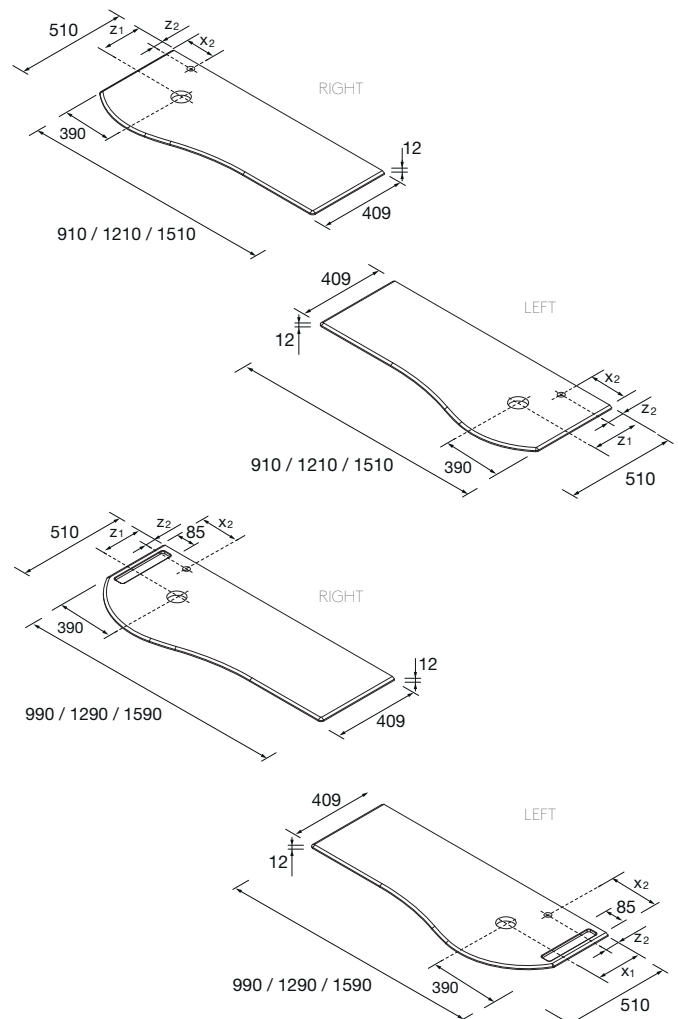

Countertops machined to the size of the furniture models in the MAM series.

- White Solid Surface and white marble finish: Compound material of polyester resin with very fine uniform solids of natural mineral composition called ATH, aluminium trihydrate.

- Black slate: Compact material with monochrome core. Resistant to abrasion and moisture, with good functionality and appearance. They need no additional edging or any work on the surface finish.

The countertops have a machining option for the tap, top basin drain and left- or right-hand towel rail.
